

ENVIRONMENTAL POLICY & COMMITMENT BY TOP MANAGEMENT

Environmental Policy

Terra Milling Ltd will operate its factory so as to minimise its impact on the environment through good manufacturing practices in compliance with all local environmental laws and regulations while satisfying the needs and requirements of its customers.

Environmental Commitment

To satisfy its environmental policy, the top management of Terra Milling Ltd takes the following commitments:

- (i)** To abide by all the relevant legislation concerning the environment.
- (ii)** To ensure that environmental considerations become an integral element in its business planning processes.
- (iii)** To support the development of environmentally and socially responsible public policies such as Sustainable Development Strategy, Waste Management or Energy Efficiency Strategy.
- (iv)** To promote the efficient use of all its resources so as to minimise waste.
- (v)** To dispose of its waste safely as required by law and regulations.
- (vi)** To ensure that its suppliers comply with good environmental practices.
- (vii)** To promote awareness on good environmental practice among its personnel by providing training.
- (viii)** Continually improve the organisation's environmental performance through monitoring and review of target.
